Experience

Bimasakti Multi Sinergi - Fulltime - Indonesia

DevOps Engineer | Mar 2023 - Present

In my DevOps experience, I have successfully leveraged Docker and Kubernetes on GCP to deploy and manage scalable applications. By implementing CI/CD pipelines, I streamlined the development process, optimized resource utilization, and ensured high availability and reliability of the systems across cloud environments. Also I integrated Cloudflare and (WAF) to enhance security.

Treeneer - Fulltime - Indonesia

Lead Developer | Oct 2018 - Mar 2023

As a Lead Developer, I guided the team in building a subset of ERP applications using Vue.js and Laravel, ensuring smooth integration between front-end and back-end systems. I optimized performance, streamlined workflows, and mentored junior developers to produce scalable, high-quality solutions.

Mary Jardin - Freelance - Malaysia

Wordpress Developer | Jul 2018 - Sep 2018

As a WordPress Developer, I built custom plugins and features to meet specific company needs, enhancing functionality and optimizing site performance for better user experience.

Purnama Kreatifa - Fulltime - Indonesia

Full Stack Developer | Dec 2016 - Jun 2018

During my nearly two years as a front-end and back-end developer, I embarked on my first journey into web development. This experience was a pivotal time of growth, where I learned and evolved alongside the company, mastering new skills and taking on exciting challenges that shaped my career.
